

## What To Expect From A Feng Shui Consultation

&nbsp;by: Jakob Jelling If you are wishing to harmonize or balance your house or any other environment according to feng shui, the ideal way to do so is through a feng shui consultation. A feng shui consultation would provide you the right and proper guidance for you to successfully achieve your goal. Before you go to a feng shui consultation, it is important that you pay attention to choosing a good consultant. You should try to find out one who has experience and demonstrated knowledge. As with everything else, there are real feng shui consultants, who care for what they do, as well as there are others who do not. But you can easily check on this by asking him some references on where he learned and about past work. A feng shui consultation may vary according to each different person and the way they like to work, but most of them would follow some general aspects in common. And, ideally, they should allow you to understand what they are talking about and what they are based on to give you a specific orientation. Most of the times, a proper feng shui consultation would take the consultant to go to the place which must be harmonized. Sometimes a video of the place can be very helpful as well, but a proper feng shui consultation takes the consultant to be able to see the place before he can give certain advice. A feng shui consultation could go through different stages. First, you may approach the consultant at his work office and let him know your general ideas. Then, he might ask you to give him a video of the space for which you are consulting him. Once he has the video, he can provide you with specific guidelines on what to do. And then, or instead of the last step, there would be a feng shui consultation stage done in the space itself. The best advice you can receive from a feng shui consultation is based on accurate information. And, by allowing the consultant to actually see the place you would be able to receive the most accurate information and guidance possible.
