

## IBS Treatment

Consistent treatment of irritable bowel syndrome IBS helps cut worker absenteeism while improving work productivity, a new study shows. IBS symptoms of abdominal pain or discomfort, bloating and constipation are associated with impaired quality of life and are the second most common cause of work-related absenteeism, behind the common cold, Canadian researcher, of the University of Alberta, Edmonton, said in a prepared statement. Bowtrol successfully targets all IBS symptoms without causing side effects of prescription drugs. Bowtrol is the most powerful combination of product on the market and it contains 100% natural ingredients. Bowtrol is a revolutionary IBS Treatment that: Clinical proven and Highly effective Works fast and is easy to take Has No side effects and is 100% Natural Has long term health benefits and supports nutrition balance Do not irritate the lining of the intestine Safe for long-term health use Promotes weight balance and Enhance body detoxification Soothes and calms your digestive tract Eliminates hyper-contractions of the intestine's smooth muscle Strengthens and protects the intestine's mucosa Bowtrol has been formulated to address the needs of all IBS sufferers, whether they experience mainly diarrhea or constipation as part of their symptoms.
