

## New Herbal Store

It is a rare occasion when you find an Online Herbal Store that is not trying to pitch you on some gimmick solution to all of your problems. There was absolutely no reason for me to believe that [NewHerbal.net](http://www.newherbal.net) would be different, but I was completely wrong.

I had been searching for more detailed information on herbal aids for diabetes but my search seemed to be in vein. Every site that I went to either didn't have what I was looking for or wouldn't provide me with the information I wanted to know. Worse than that, the only way I could contact them would be through e-mail. Towards the end of my search, I stumbled onto NewHerbal.net.

They weren't like the other sites, cluttered with every possible health product out there and I could actually navigate the site very easily. I didn't see what I was looking for on the first page, but with 6 very specific categories available for search it was very easy to figure out where to look.

Within the categories, each [health product](#) had it's own page providing an over view of the product details. This was excellent to see as the type of herbal product I had been looking for lacked detailed information on every other site I had been to. I couldn't believe it when I saw an ingredients tab that provided a direct copy of the supplement facts on the back of the bottle! I went through and looked at the other products, and they all had it as well!

To be on the safe side, I called their toll free number to place my order. To be safe, I only wanted to order one bottle, and the nice operator told me all about their money back guarantee and how I would be receiving free access to a weight loss program and e-book as a "Thank You" for buying through them.

It has been almost a month since I placed my first order at [NewHerbal.net](http://www.newherbal.net). Since then, I have ordered 4 more bottles which got me an extra 2 bottles free. With all the other medication I'm on for diabetes, saving money on something that has actually improved my daily life is something I can't say has happened to me often. I really recommend giving NewHerbal.net a shot, but you don't have to listen to just me. They have a page full of testimonials that will let you know that for once, you're in good hands with an Online Herbal Store.
